IV. HONORS AND ACHIEVEMENTS

• Students of the Month

V. STUDENT ACHIEVEMENT LIAISON REPORT

Mrs. Stocker reported on the following:

Elida Elementary School

Mrs. Jessica Pseekos secured funding through DonorsChoose.org. This online site allows donors from all over to contribute to worthwhile projects. Since Mrs. Pseekos students are only with her 30 minutes a day, every minute counts. Wiggle cushions help students focus on learning. Research indicates that allowing students to move around increases blood flow to their brains and this keeps them alert. Wiggle cushions also force the students to concentrate on maintaining their balance, which translates to better posture and better concentration on their tasks.

The Character Word for the month is CARING. Students chosen are found to be caring and concerned about their fellow students by watching out for them and tending to their needs.

The Delphos Herald, each year, comes into the 4th grade classrooms to talk about designing ads. Students are then given the opportunity to design an ad based on the principles taught. Ads were judged by Judy Houg, a Van Wert City Schools art teacher. Each finalist was awarded $10 and their ad was featured in a special Delphos Herald supplement. The school also received $30.
Elida Middle School

Honor Roll I  3.667 to 4.0
201 Students out of 819 were selected to Honor Roll I
Honor Roll II  3.0 to 3.66
239 students our of 819 were selected to Honor Roll II

Thank you to Miss Amanda Witkowski who hopefully has started a new middle school tradition by doing an on stage musical with 32-middle school students. Most of remember the 1970s Saturday morning cartoon series that taught history, grammar, math, science and politics through clever, tunes and songs. SCHOOLHOUSE ROCK LIVE! follows Tom, a nerve-wracked school teacher who is nervous about his first day of teaching. He tries to relax by watching TV when various characters representing facets of his personality emerge from the set and show him how to win his students over.

Elida High School

Elida DECA students competed at the District III Career Development Conference at Ohio Northern University on February 4th. The students competed in areas such as Buying & Merchandising, Hotel & Lodging, Human Resources along with many other areas. The 18 students received trophies and will advance to the State Conference in March.

The Elida FFA Greenhand Quiz Team placed 3rd out of 110 schools in the State of Ohio FFA Greenhand Career Development Event. This contest is an online test taken by 1,610 first year Ohio FFA members. The contest test student knowledge about the Ohio FFA, National FFA, FFA history and parliamentary procedure skills. Seven Elida students placed in the top 100 out of 1610 students.

On February 5th Senior, Chance Weitz signed his letter of intent to play football at Bowling Green State University. Chance is a 6’3” 250 pound defensive tackle. Chance finished his Senior season with 72 tackles for loss and seven sacks. He was named All-Northwest District first team. in Division III and was named All-Ohio Second team as a defensive lineman.

Also, on February 5th, Senior, Cassidy Slusher signed her letter of intent to play soccer at Tiffin University. Cassidy is a 5’2” defender and she received 2nd Team all-Ohio honors.

Dakota Mathias was named the McDonalds Scholar-Athlete for the week of February 10th on WLIO. Dakota will play basketball at Purdue University next year. Dakota has a 4.0 GPA and ranks 5th in his class.

Special Guests

Last month it was announced that Kids Hope USA would be partnering with Elida Elementary to provide mentors to at risk students. Debbie Boquist and Julie Long, from Kid’s Hope USA and Lima Community Church of the Nazarene were invited to speak. Kid’s Hope USA believes that one simple thing will make a big difference in the life of an at-risk child: one-on-one, positive attention from a responsible, caring adult. Kids Hope USA mentors spend just one hour per week, reading, talking, playing and listening to a child at school. By helping the child feel loved and valued, they help that child to learn, grow and succeed. Some early reports are that after only one or two mentoring sessions, children are already having positive experiences that are translating into improvements in the classroom. Thank you to Julie Long & Debbie Boquist!
Corrine Piper addressed the Board in regards to an Elida Community After School Program.

VI. LEGISLATIVE LIAISON
Mr. Schymanski reported on the following:

**Calamity day legislation update:**

House Bill (HB) 416 is legislation that would allow school districts four additional calamity days (added to the five already allowed without a requirement to make up the days) and once again give school districts the ability to add half-hour increments to the regular school day for purposes of making up days missed.

The legislation was scheduled for a floor vote in the House on Feb. 12. However, due to conflicting opinions within the House Republican caucus on support for the legislation, the bill was informally passed. Informal passage does not mean the bill has passed out of the House chamber, but means it retains its position or standing on the House calendar and can be brought up for a vote in future sessions.

House Education Chairman, Gerald L. Stebelton (R-Lancaster) said the bill most likely will come back up for a vote with several possible amendments during the next scheduled House session.

The Senate has yet to take action on calamity day’s legislation. Until the legislation has been through the entire legislative process (formally passed by both chambers and signed by the governor), school leaders should continue to follow their district’s current policies on calamity days.

**Change in dates for Ohio Achievement Assessments**

Since many districts have used more calamity days than normal this school year, concerns have been raised about student preparedness for the Ohio Achievement Assessments (OAA). In response, Superintendent of Public Instruction Dr. Richard A. Ross announced a change in OAA testing dates on Feb. 11 during the State Board of Education meeting. The modified testing window will be April 21 through May 16. Students will take the tests during the first three weeks of that window, while the fourth week will be a makeup week for students who were absent for the initial round of tests. No changes will affect the window for the Ohio Graduation Test (OGT) due to timing issues with high school graduation dates. In addition, scoring and reporting the third-grade reading OAAs will be made a priority in order to fulfill the third-grade reading guarantee requirements.

In regards to High school graduation requirements, the Senate Education Committee met this week and held a hearing on Senate Bill (SB) 273 and HB 342. As House representatives were working out their differences on HB 416, the Ohio Senate introduced SB 273. The bill would excuse graduating 12th-grade students from attending school on makeup days scheduled after high school graduation ceremonies. Introduced by Sen. Randy Gardner (R-Bowling Green), the bill was proposed as an addendum to calamity day’s legislation. This allows school districts to keep their previously scheduled graduation ceremony dates despite missed time for school day cancellations.
SB 229 is legislation that makes modifications to teacher performance evaluations. The bill would allow school districts to opt for the full Ohio Teacher Evaluation System evaluation for teachers annually for those deemed “Developing” and “Ineffective” on their most recent evaluations; biannually for those deemed “Skilled”; and every three years for “Accomplished” teachers. OSBA testified in support of the bill and worked with the Senate Education Committee as it went through the legislative process. Prior to being voted out of the Senate, amendments were added to the bill requiring that observation and contact time take place with all teachers each year, regardless of their designation. This was to allow administrators to recognize problems that might arise with otherwise high-performing teachers, even though a full-scale annual evaluation is not required.

HB 228 is legislation seeking to make modifications to the school-funding system for districts with significant student growth. The bill essentially adjusts the caps on the current funding formula based on growth and enrollment above a threshold and establishes a per-pupil funding floor of $1,000.

HB 343 has an interesting twist as it seeks to expand charter school programs into GED training. This could impact Vocational schools. The bill seeks to make modifications for students seeking a GED, operations of Adult Basic and Literacy Education (ABLE) programs by community schools and the enrollment of individuals between the ages of 22 and 29.

The House Health and Aging Committee accepted a substitute version of HB 264 this week. HB 264 is legislation that would make changes to how schools care for students with diabetes. After accepting the substitute bill, the committee voted the legislation out. The substitute bill would add a provision requiring notification of entitlement to a care plan to parents of a diabetic child; modify employee training requirements; modify volunteer recruitment requirements; modify student self-management requirements; delete medical practitioner disclaimers; modify civil liability provisions; and add reporting requirements. The legislation still includes a provision requiring school districts to allow students with diabetes to attend the building of their choice, regardless of the resources available for their care.

In addition, I would like to report on the activities I have initiated to help address public school funding as well as Federal Governmental requirements such as common core.

I have met with both Republican candidates running for District 4, Matt Huffman’s seat. Both seem like good candidates. I was impressed by how much info, Kurt Neeper has learned about state funding. Based on conversations with Matt Huffman, one of the weaknesses of Ohio’s term limits is the number of new representative who have to quickly develop a state budget. Many elected representatives find this task quite a core as a first timer. So Mr. Neeper does seem to be well into the learning curve and prepared. He does support public education. His thoughts are to develop a per student formula to address school funding. We did talk about this as each of the last 4 governors has tried to develop a per student formula without success. So this does seem like a challenge but one he wants to attack. The other Republican candidate is Robert Cupp. He was an Ohio Senator for 2 terms and then term limited out. He does have more public education experience. Currently, public schools do have a series of yearend financial and educational reports to fill out. These reports are a result of a bill he introduced and the reports are informally referred to as the Cupp Reports. Both impressed me with their knowledge and both seem like good candidates. I hope that there will be some informational sessions where
candidates can express their views and allow all of us to learn more. I do plan to talk to the Democratic candidate but probably not until the Republican primary is finished. That way I can better contrast the opinions for our November vote.

I have also contacted Congresswoman Marcia Fudge’s Educational Legislative Liaison to express concern about both the common core testing requirements as well as discussion associated with portability of money for special education students. I have not heard back. I may not because I am not in Congresswoman Fudge’s district. Congresswoman Fudge is the only Ohio House member who is on the Educational committee.

I have contacted Congressman Jordan’s Educational Legislative Liaison. She did reply to me. I wrote her last week and asked her to find out more info on a Conservative Reform conference where Senator Tom Scott was addressing school choice options. I am trying to point out the lack of public accountability associated with school choice funding. I am not sure if she will reply to me or if she will defer to a meeting I will schedule with Congressman Jordan’s Lima office.

Finally, I did write to Chase Eikenbary. Mrs. Eikenbary is the Northwestern Regional Liaison for Governor Kasich. The Governor recently discussed changing teacher certification requirements to allow business professionals to teach at the High School level. I wrote expressing concern about this concept. I do understand that here in Ohio, we do have jobs that are difficult to fill since many Ohioans do not possess required skills or knowledge. I pointed out that Apollo is a great example of a vocational school that has responded to community needs and has brought in professional help to improve its welding program, its CNC training program as well as many other area positions. Many jobs require 2 or 4 year degrees. So having business professionals in high school does not seem to address this issue.

Finally, I pointed out that there is nothing stopping business professionals for volunteering to work in high schools helping students in STEM fields as well as English and social studies. I used my volunteer experiences as an example to point out how easy it is to help not only in STEM fields but even just helping students organize power point presentations by teaching how to highlight key elements of a presentation. Volunteering does not take any special certification and I think would be a good first step to improve business involvement in schools but in a controlled fashion that benefits students.

VII. COMMUNITY RELATIONS – Chief Matt Redick
Chief Matt Redick addressed the Board regarding last week’s incident at the Elida Middle School. Chief Redick noted that proper procedures were followed. The Chief also noted that he was on school grounds for 1.25 hours and was pleased with the safe outcome.

Mr. Jeff Christoff reported on the following:

Community Relations Committee Report -
Jeff Christoff, Christine Ulrich, Don Diglia

The Committee met on Thursday, January 30th with all building principals & vice-principals as well as other members of the administrative team, to discuss a “Days to Hours conversion” proposal for the 2014-15 school year. With only ~ 6 weeks before high
school underclassmen begin to register for fall classes, the proposal was withdrawn from consideration. The 2014-15 calendar will be nearly identical to the current calendar.

President Ulrich and I have discussed scheduling another meeting with Mr. Diglia and selected members of the administrative team to discuss the various communication methods available to the district, and how to improve their current utilization. Special board meetings or extended sessions of regular Board meetings, community forums, focus groups, community surveys, and other methods will be considered.

VIII. OPEN BOARD FORUM
Mr. Christoff mentioned that he would like the Community Relations Committee to follow-up with families on feedback (pros and cons) regarding Blizzard Bag use.

IX. PUBLIC PARTICIPATION
Mark Miller, Safety and Facilities Manager, addressed the Board on safety issues and that the incident that happened last week involving a student was handled properly with all officials doing what they were supposed to do. Because of the efforts of all involved, the situation had a safe ending.

X. SUPERINTENDENT REPORT
- Semi-Annual Bullying Report
Mr. Diglia presented the following report on bullying in Elida Schools:
Elida Board of Education Policy, 5517.01, is a state required policy and is based on 3313.666 Ohio Revised Code. This policy specifies that a report will be provided to the Board President and published on the district web site that reports the verified number of harassment/hazing/bullying incidents as defined by Ohio Department of Education.

Based on the definition from the Ohio Department of Education, the following incidents of harassment/hazing/bullying were reported and addressed during the 1st half of the 2013-14 school year:

➤ Elida High School - 7
➤ Elida Middle School - 3
➤ Elida Elementary School - 4

XI. TREASURER REPORT
Mr. Parker reported on the following:
* Passed out the 2014 OSBA Legislative Platform
* Reviewed financial data from January 31, 2014

Revenue $11,001,905
Expenses $12,084,217
End Balance $875,426

Noted the ending balance represents a 15 day carry-over. As we evaluate the need for solid financial planning, we must consider what a future tax issue will look like. It is very important to study a 5 to 7 year plan.

* A letter was sent to Matt Huffman noting many areas where charter schools have wasted tax payer money. This issue is growing and needs to be evaluated.
XII. ADDITIONS TO THE AGENDA ACTION ITEMS
