VI. LEGISLATIVE LIAISON

Mr. Schymkanski reported on the following:

School Funding

The House incorporated HB1, the Fair School Funding Act into HB110, the Biannual Budget bill. Then passed this bill. It is now in the Senate. President of the Senate, Matt Huffman has said that the funding formula will pass the Senate but that there may be major changes to sections of the funding formula. Senator Matt Dolan, Chair of the Finance committee has said that the bill is too expensive for the State to fund. The Ohio Office of Management and Budget did testify at the Senate hearings to discuss the budget and forecasted growth. There is lots of data in their testimony. One key point is expected growth in Ohio revenue: 2021-2022 = 2.3% & 2022-2023 = 4.3%. This funding bill has lots of components from K-12 funding but also, pre-school and Higher Education, all asking for funding. Plus, the normal budget items. There was one day of testimony just on Stem Schools & Stem funding.

The numbers that are testifying on the K-12 section are exceptionally large. Many are testifying in support of the funding bill. There has been 9 days of testimony, so far, with more scheduled. Special interests are testifying to ensure School Choice is considered. One Testimony from Frank

Held — O'Linn, Ed.D, from the Catholic Diocese of Cleveland, was concerned that the School funding group was only public-school personnel. He asked for the voucher funding to be increased since it has been the same amount for at least, the last 5 years.

I do think that we should consider sending in letters to support the Fair Funding plan as passed by the house. I would personally associate HB 290, referred to as the "backpack bill" because of the intent to provide a voucher to every student in Ohio. This bill seems like one just approved by West Virginia. HB 290 would allow any student to get a voucher including homeschooled students. I have not yet seen the funding mechanism. But I am concerned on where the funding will come from. This bill depending on where the funding comes from could be a serious handicap for public schools. This is another bill that a resolution or a letter writing campaign is necessary. OSBA has asked us to write to our Legislators.

Senate President Huffman indicated that Inflation rose only 60.25% since 1997 but education expenses by state have risen 116%. Also, the state has spent \$12.75 billion on new or updated school buildings. My data show inflation rose slightly more based on several indexes, with the range being 67-68.3%. I have asked OSBA to get an opinion from Dr. Fleeter.

Other Ohio Legislation

One interested item on SB 145, a bill sponsored by Senator Andrew Brenner was a change in his attitude towards letter grades. He has changed his mind and incorporated a rating similar to the House bill on grade cards. This is a good thing. The bill looks like it is getting closer to the house bill. One item that Speaker Cupp and President Huffman appear to be working on is aligning bills ahead of time. This would eliminate the conference committee. To me, this is a great move. Conference committees tend to ignore public input and I have written both several times about legislators should not have a system that does not include public input.

Senate passed SB 1 which would require student entering 9th grade next year to complete ½ unit of a financial literacy class, not yet developed by ODE. We do have a financial literacy option for all students. Senate Bill 165 had its 3rd hearing. This bill would address the Academic Distress Commission for Lorain City School District. The Board would have to develop a 3-year improvement plan and have the Ohio Auditor of the State Office complete a performance audit. This is important as it looks like the legislators may be moving away from academic distress commissions.

HB 73 had sponsor testimony only. This bill could do several good things for schools. It reduces the number of end-of-course exams from 5 to 4, require school districts to develop a working group to evaluate the amount of time students spend testing, eliminate the requirement for 11th grade students to take the ACT or SAT, and prohibit retention under the 3rd grade reading guarantee.

VII. PUBLIC PARTICIPATION RELATED TO ACTION ITEMS**VIII. SUPERINTENDENT REPORT**
